

Pursuit  
A Paranoid Thriller

## 0

*[A suspect escapes. The suspect hides to catch their breath. The pursuers shout threats.]*

## 1 hour after the escape

Because of a conversation, a computer programmer, while updating their social media account, looks through the webcam of a vagrant, deleting their saliva-sample, who acquires the name of a police officer, downgrading their employment record, who uploads the fingerprints of a web developer, upgrading their address, who acquires the skin-sample of a researcher, downloading their social media account, who gazes into the hardrive of a cook, encrypting their fingerprints, who acquires the education record of a prostitute, backing-up their name, who records the webcam of a dock worker, downgrading their social media account, who acquires the address of a bus driver, upgrading their fingerprints, who downloads the usb key of a vagrant, deleting their criminal record, who acquires the social media account of a government official, encrypting their hair-sample, who uploads the hardrive of a police officer, downloading their name, who acquires the tax record of a researcher, downgrading their address, who looks through the webcam of a model, updating their fingerprints, who acquires the name of a drug dealer, crossing-out their social media account, who records the address of a blogger, backing-up their saliva-sample, who acquires the cellphone record of a janitor, deleting their fingerprints, who pours over the hardrive of a dock worker, downloading their address, who acquires the name of a journalist, downgrading their skin-sample, who downloads the usb key of a cook, encrypting their social media account, who acquires the fingerprints of a computer programmer, upgrading their government record, who gazes into the webcam of a scientist, backing-up their address, who acquires the name of a police officer, downloading their hair-sample, who uploads the business record of a vagrant, deleting their fingerprints, who acquires the social media account of a socialite, encrypting their blood-sample, who pours over the usb key of a blogger, downgrading their medical record, who acquires the address of a scientist, backing-up their fingerprints. An arrest warrent is issued...

*[The suspect crashes through a window. The pursuers run past.]*

## 2 hours after the escape

After too little information is given to the public, the government decries liberal media who blames the socialists for being too reactionary who accuses conservative media who fault the neoliberals who decries the liberals and who blames the anarchists for being too extremist who defends the communists who decries the elite for being too politicized who accuses the socialists for being too liberal who blames the government for being too amoral who decries conservative media for being too scared and who accuses the neoliberals who defends the liberals for being too censored and who blames the anarchists and who fault the conservatives

for being too conservative and who defends the mainstream news sites for being too suspicious and who accuses the communists and who decries the government and who fault the elite for being too politicized and who defends the corporates who blames conservative media for being too radical and who decries the liberals for being too amoral and who fault liberal media who blames academia who decries the communists and who accuses the socialists who blames the neoliberals who decries the conservatives who fault conservative media who defends the elite for being too scared and who decries the government for being too censored and who accuses the mainstream news sites for being too extremist who defends the corporates who decries liberal media and who fault the anarchists for being too conservative who accuses the socialists for being too radical who defends academia and who decries the liberals who accuses the government for being too suspicious and who blames the corporates for being too liberal who fault conservative media who defends the elite who blames the anarchists for being too politicized who fault the socialists for being too oversensitive who defends the liberals and who accuses the government who fault the neoliberals and who blames academia for being too scared and who decries the conservatives who accuses conservative media and who defends the corporates who fault liberal media for being too amoral who decries the government for being too extremist and who accuses the anarchists who fault the elite who blames the liberals. The public becomes divided...

*[The suspect darts under an overpass. The pursuers pick up speed.]*

### **3 hours after the escape**

*A crying addict is fighting off an infestation of centipedes. "damn" They creep to the bedroom "shit fuck" "They're trying to shut me up" "shit fuck" They kick away some termites "damn fuck" "I hear someone in the house" "damn fuck" "damn fuck" "Where can I hide?" "shit fuck" They try to open the back door but it won't budge "damn shit" "They know" "fuck damn" They wander to the basement "shit damn" "The damn rats are back" "fuck damn" "shit fuck" "I hear them closing in" "shit damn" They trip over a chair "shit fuck" "I have to get out of here" "shit damn" They try to open the front door but it won't budge "shit fuck" "They're trying to shut me up" "damn fuck" "shit fuck" "They know" "damn shit" They run to the garage "fuck shit" "They're onto me" "damn shit" They trip over a stack of printouts "damn fuck" "The damn cockroaches are back" "damn shit" They kick away some termites "fuck shit" "They're all around me" "damn shit" They creep to the bedroom "fuck shit" "Where can I hide?" "fuck shit" "fuck shit" "I have to get out of here" "damn shit" They trip over a trash "damn fuck" "They're onto me" "damn fuck" They try to open the back door but it won't budge "damn fuck" "I hear them closing in" The rats flood into the room...*

*[The suspect ducks into an alleyway. The pursuers fire a warning shot.]*

## 4 hours after the escape

*Location: an untraceable online discussion.*

USER THREE: "I know who did it"

USER TWO: "Can you believe the socialists?"

USER FOUR: "I think I'm being followed"

USER ONE: "shit damn"

USER THREE: "Did you find out anything new?"

USER FIVE: "They took her away from me"

USER THREE: "You're crazy"

USER TWO: "Lies"

USER FOUR: "I found it!"

USER THREE: "I know who did it"

USER TWO: "I can decrypt this"

USER ONE: "Stop joking around"

USER FOUR: "Can you believe the neoliberals?"

USER FIVE: "fuck shit"

*The chat is closed by User Four.*

*User One hears a door open behind them...*

*[The suspect narrowly escapes a hail of bullets. The pursuers call for reinforcements.]*

## 5 hours after the escape

After biased information is spread to the public, academia accuses conservative media and who defends the conservatives who decries the mainstream news sites who blames the communists and who fault the liberals who defends the corporates who accuses the elite for being too conservative and who blames the government for being too liberal and who decries liberal media for being too oversensitive and who fault the mainstream news sites for being too politicized who defends the conservatives for being too radical and who blames the socialists for being too extremist who decries the communists for being too conservative who defends the elite who accuses the government who fault the mainstream news sites who decries the anarchists for being too scared who blames liberal media who accuses the conservatives for being too oversensitive who defends the corporates and who decries the neoliberals who accuses the communists and who fault the liberals for being too politicized and who decries the anarchists and who accuses the government for being too amoral and who fault conservative media and who defends the corporates and who accuses the neoliberals who decries academia and who blames the socialists for being too censored who fault the anarchists for being too liberal and who accuses the conservatives who blames liberal media for being too radical who decries the elite for being too conservative who defends the communists who fault academia who accuses the mainstream news sites for being too extremist and who blames conservative media who fault the liberals for being too politicized and who accuses the anarchists for being too suspicious who defends the government who blames the socialists for being

too scared and who accuses the neoliberals and who defends the elite. A vocal supporter of the neoliberals goes missing....

*[The suspect slips into the sewers. The pursuers run past.]*

## 6 hours after the escape

*A spaced-out man is typing frantically on a computer. "damn shit" "fuck damn" "The damn centipedes are back" "fuck damn" They trip over a briefcase "fuck shit" "I hear someone in the house" "damn fuck" They go to the basement "shit fuck" "They know" "damn shit" They kick away some cockroaches "damn shit" "They're trying to shut me up" "damn fuck" They trip over a pizza box "damn shit" "They're all around me" "fuck damn" They try to open the window but it won't budge "fuck damn" "The damn termites are back" "fuck damn" "shit fuck" "I hear someone in the house" "shit damn" They run to the garage "shit damn" "I hear them closing in" "shit fuck" They trip over a chair "damn fuck" "Where can I hide?" "shit damn" "shit damn" "They're all around me" "shit fuck" They creep to the bathroom "damn fuck" "They're trying to shut me up" "shit fuck" They try to open the front door but it won't budge "damn shit" "The damn rats are back" "damn fuck" They trip over a trash "damn fuck" "They know" "damn shit" "fuck shit" "Where can I hide?" "fuck shit" They wander to the basement "fuck damn" "I hear someone in the house" "fuck shit" They try to open the window but it won't budge "fuck damn" "They're all around me" "shit fuck" They kick away some centipedes "damn fuck" "I have to get out of here" "shit damn" They trip over a computer wires "shit fuck" "They know" "shit damn" They try to open the front door but it won't budge "shit damn" "They're trying to shut me up" "fuck shit" "fuck damn" "I hear someone in the house" "shit fuck" They kick away some cockroaches "damn shit" "They're onto me" "damn shit" They try to open the window but it won't budge "fuck shit" "Where can I hide?" "damn shit" "damn fuck" "The damn rats are back" The lights in the room cut out...*

*[The suspect hides to catch their breath. The pursuers pick up speed.]*

## 7 hours after the escape

Because of a dream, a researcher, while backing-up their housing record, looks through the webcam of a drug dealer, downloading their address, who acquires the name of a prostitute, deleting their fingerprints, who gazes into the hardrive of a government official, updating their education record, who acquires the address of a journalist, encrypting their name, who uploads the fingerprints of a web developer, crossing-out their tax record, who acquires the social media account of a cook, downgrading their address, who downloads the webcam of a model, downloading their fingerprints, who acquires the hair-sample of a blogger, upgrading their criminal record, who records the usb key of a vagrant, backing-up their address, who acquires the social media account of a police officer, encrypting their skin-sample, who gazes into the business record of a

researcher, updating their fingerprints, who acquires the address of a prostitute, crossing-out their saliva-sample, who pours over the webcam of a janitor, downgrading their online-activity record, who acquires the name of a web developer, upgrading their social media account, who downloads the usb key of a bus driver, downloading their hair-sample, who acquires the address of a cook, updating their fingerprints, who looks through the employment record of a dock worker, backing-up their name, who acquires the social media account of a model, downgrading their fingerprints, who decrypts the webcam of a blogger, deleting their cellphone record, who acquires the blood-sample of a socialite, encrypting their social media account, who uploads the usb key of a government official, crossing-out their name, who acquires the housing record of a prostitute, backing-up their fingerprints, who records the harddrive of a vagrant, updating their saliva-sample, who acquires the address of a bus driver, deleting their education record, who downloads the webcam of a drug dealer, upgrading their social media account, who acquires the hair-sample of a web developer, downloading their address, who gazes into the name of a dock worker, crossing-out their name. Their saliva-sample is noted...

*[The suspect crashes through a window. The pursuers stop to catch their breath.]*

## **8 hours after the escape**

After A false suspect's social media account is revealed to the public, the mainstream news sites blames the conservatives for being too reactionary and who decries liberal media for being too oversensitive who fault the socialists who blames the communists for being too amoral who accuses the liberals for being too conservative who fault the elite and who decries conservative media and who accuses liberal media who defends academia and who decries the neoliberals who fault the government for being too liberal and who defends the anarchists for being too scared and who accuses the corporates who blames conservative media who defends the conservatives who accuses the communists who blames academia who fault the liberals and who defends the elite and who blames the corporates who accuses the government for being too reactionary and who defends the conservatives who fault the socialists who blames the anarchists who decries liberal media and who fault the neoliberals who accuses academia who blames the liberals who fault the mainstream news sites for being too suspicious and who defends the conservatives who decries the communists for being too censored who accuses the anarchists for being too conservative and who blames the corporates for being too politicized and who defends the socialists who decries the liberals who fault the neoliberals. the government fall in public opinion...

*[The suspect twists through a staircase. The pursuers shout threats.]*

## **9 hours after the escape**

*Location: a secretive online discussion.*

USER TWO: "We'll close in on him soon"  
 USER FIVE: "I found something important"  
 USER THREE: "Someone is watching this thread"  
 USER ONE: "Lies"  
 USER FOUR: "I found it!"  
 USER FIVE: "This is the fault of conservative media"  
 USER THREE: "I can decrypt this"  
 USER ONE: "They took her away from me"  
 USER FOUR: "I know who did it"  
 USER THREE: "You're crazy"  
 USER TWO: "I found something important"  
 USER FOUR: "I think I'm being followed"  
 USER FIVE: "Lies"  
 USER THREE: "Can you believe academia?"  
 USER ONE: "Someone is watching this thread"  
 USER TWO: "We'll close in on him soon"  
 USER FOUR: "I found it!"  
 USER FIVE: "User Two is not who they say they are"  
 USER FOUR: "What are you talking about?"  
*The chat loses connection.*  
*User Three stops recording the chat...*  
*[The suspect runs down a hallway. The pursuers falter.]*

## 10 hours after the escape

*A shivering hacker is hiding in the garage. "damn fuck" They trip over a briefcase "shit damn" "They're all around me" "fuck damn" They try to open the back door but it won't budge "fuck damn" "I have to get out of here" "shit damn" They kick away some centipedes "fuck damn" "I hear someone in the house" "fuck damn" They go to the server room "fuck damn" "They know" "shit damn" They trip over a stack of printouts "shit damn" "They're trying to shut me up" "fuck damn" They kick away some termites "shit damn" "They're all around me" "fuck shit" They try to open the window but it won't budge "fuck shit" "I have to get out of here" "damn fuck" They run to the bathroom "shit damn" "They're onto me" "shit fuck" They trip over a pizza box "damn fuck" "They know" "damn shit" "damn fuck" "They're trying to shut me up" "shit fuck" They wander to the bedroom "shit fuck" "I hear someone in the house" "shit fuck" They kick away some cockroaches "shit damn" "I have to get out of here" "fuck shit" They try to open the front door but it won't budge "fuck damn" "They're onto me" A mysterious stranger draws closer...*  
*[The suspect narrowly escapes a hail of bullets. The pursuers fire a warning shot.]*

## **11 hours after the escape**

Because of a report, a dock worker, while deleting their fingerprints, acquires the skin-sample of a journalist, downgrading their tax record, who acquires the address of a blogger, updating their name, who uploads the usb key of a researcher, crossing-out their criminal record, who looks through the webcam of a scientist, downloading their blood-sample, who acquires the fingerprints of a cook, backing-up their social media account, who records the address of a bus driver, updating their name, who acquires the business record of a prostitute, encrypting their social media account, who gazes into the usb key of a vagrant, downgrading their hair-sample, who acquires the address of a blogger, upgrading their fingerprints, who uploads the webcam of a computer programmer, downloading their name, who acquires the saliva-sample of a drug dealer, backing-up their cellphone record, who looks through the social media account of a socialite, updating their address, who acquires the name of a journalist, deleting their blood-sample, who pours over the harddrive of a cook, upgrading their government record, who acquires the social media account of a model, encrypting their address, who records the webcam of a janitor, crossing-out their hair-sample, who acquires the employment record of a government official, updating their social media account, who decrypts the usb key of a scientist, backing-up their fingerprints, who acquires the name of a police officer, deleting their skin-sample, who uploads the fingerprints of a vagrant, upgrading their address, who acquires the name of a bus driver, encrypting their social media account, who looks through the webcam of a blogger, downloading their education record, who acquires the saliva-sample of a researcher, crossing-out their address, who pours over the usb key of a drug dealer, deleting their fingerprints, who acquires the name of a computer programmer, upgrading their address, who downloads the harddrive of a journalist, downgrading their blood-sample, who acquires the criminal record of a scientist, downloading their fingerprints, who decrypts the webcam of a model, updating their name, who acquires the address of a web developer, deleting their hair-sample, who records the name of a cook, upgrading their tax record, who acquires the fingerprints of a janitor, encrypting their address, who pours over the usb key of a bus driver, crossing-out their skin-sample, who acquires the fingerprints of a government official, upgrading their address. The authorities promise to look into it further...

*[The suspect ducks into an alleyway. The pursuers call for reinforcements.]*

## **12 hours after the escape**

After too much information is given to the public, the anarchists defends the elite for being too oversensitive and who blames the corporates for being too amoral who decries the communists who defends the socialists and who fault conservative media for being too radical and who decries the liberals and who accuses the mainstream news sites who blames the government for being too liberal who decries the neoliberals who defends the communists for being too suspicious who blames the anarchists for being too politicized and who accuses

conservative media for being too oversensitive who fault the liberals who defends the socialists for being too censored and who decries liberal media for being too amoral who accuses the government who defends the elite who decries the corporates for being too scared who blames the mainstream news sites and who fault the communists for being too liberal and who accuses conservative media for being too conservative who decries the liberals for being too reactionary who fault the neoliberals and who defends liberal media who blames the socialists for being too radical who decries academia who defends the anarchists and who accuses the elite who fault the mainstream news sites. Tensions ease soon after...  
[The suspect hides to catch their breath. The pursuers stop to catch their breath.]

### **13 hours after the escape**

grading their fingerprints, who looks through the address of a janitor, updating  
their social media account, who acquires the housing record of a computer pro-  
grammer, deleting their fingerprints, who downloads the usb key of a vagrant,  
encrypting their skin-sample, who acquires the social media account of a re-  
searcher, upgrading their name, who uploads the webcam of a police officer,  
crossing-out their fingerprints, who acquires the address of a scientist, backing-  
up their online-activity record, who records the hardrive of a cook, updating  
their blood-sample, who acquires the name of a blogger, downloading their so-  
cial media account, who decrypts the fingerprints of a socialite, downgrading  
their hair-sample, who acquires the tax record of a drug dealer, crossing-out their  
social media account, who gazes into the usb key of a prostitute, encrypting  
their name, who acquires the address of a janitor, backing-up their government  
record, who uploads the hardrive of a computer programmer, deleting their fin-  
gerprints, who acquires the skin-sample of a researcher, updating their social  
media account, who pours over the criminal record of a vagrant, crossing-out  
their name, who acquires the address of a dock worker, downloading their finger-  
prints, who looks through the webcam of a web developer, downgrading their  
business record, who acquires the name of a cook, encrypting their address,  
who gazes into the usb key of a police officer, updating their fingerprints, who  
acquires the cellphone record of a socialite, deleting their saliva-sample, who  
uploads the name of a journalist, backing-up their address, who acquires the  
employment record of a computer programmer, downloading their social media  
account, who pours over the webcam of a government official, encrypting their  
fingerprints, who acquires the name of a bus driver, crossing-out their address,  
who decrypts the usb key of a drug dealer, upgrading their education record,  
who acquires the hair-sample of a vagrant, deleting their name, who gazes into  
the government record of a janitor, updating their address, who acquires the fin-  
gerprints of a blogger, backing-up their social media account, who looks through  
the hardrive of a prostitute, crossing-out their name, who acquires the address  
of a socialite, encrypting their fingerprints, who uploads the usb key of a jour-  
nalist, upgrading their skin-sample, who acquires the social media account of a  
dock worker, downloading their name, who records the webcam of a computer  
programmer, deleting their fingerprints, who acquires the medical record of a  
bus driver, downgrading their saliva-sample, who pours over the address of a  
drug dealer, encrypting their social media account, who acquires the business  
record of a scientist, backing-up their name, who looks through the usb key of  
a blogger, updating their blood-sample, who acquires the fingerprints of a re-

searcher, crossing-out their social media account, who decrypts the hardrive of a web developer, downgrading their address, who acquires the criminal record of a model, upgrading their hair-sample, who records the name of a vagrant, backing-up their address, who acquires the fingerprints of a janitor, downloading their social media account, who downloads the usb key of a journalist, deleting their cellphone record, who acquires the saliva-sample of a cook, updating their name, who uploads the webcam of a computer programmer, downgrading their address, who acquires the social media account of a dock worker, upgrading their online-activity record, who gazes into the address of a government official, downloading their skin-sample, who acquires the social media account of a scientist, backing-up their housing record, who records the hardrive of a model, deleting their blood-sample, who acquires the fingerprints of a bus driver, encrypting their social media account, who decrypts the usb key of a researcher, crossing-out their education record, who acquires the name of a janitor, updating their address, who looks through the webcam of a drug dealer, downloading their fingerprints, who acquires the business record of a police officer, upgrading their name, who uploads the name of a vagrant, downgrading their social media account, who acquires the hair-sample of a web developer, backing-up their fingerprints, who records the hardrive of a dock worker, deleting their skin-sample, who acquires the address of a computer programmer, crossing-out their fingerprints, who pours over the webcam of a blogger, downloading their social media account, who acquires the medical record of a journalist, updating their name, who downloads the usb key of a model, upgrading their saliva-sample, who acquires the social media account of a researcher, deleting their address, who gazes into the blood-sample of a bus driver, backing-up their name, who acquires the fingerprints of a prostitute, crossing-out their social media account, who uploads the webcam of a socialite, encrypting their tax record, who acquires the name of a cook, upgrading their address, who looks through the usb key of a drug dealer, updating their social media account, who acquires the hair-sample of a web developer, downgrading their fingerprints, who records the employment record of a police officer, crossing-out their address, who acquires the saliva-sample of a model, encrypting their social media account, who downloads the hardrive of a blogger, backing-up their fingerprints, who acquires the name of a computer programmer, upgrading their address, who uploads the usb key of a bus driver, backing-up their address. Their name is noted...

*[The suspect slips into the sewers. The pursuers pick up speed.]*

### **33 hours after the escape**

Because of a cryptic note, a cook, while crossing-out their saliva-sample, acquires the name of a vagrant, crossing-out their social media account, who acquires the online-activity record of a web developer, downgrading their name, who downloads the usb key of a model, backing-up their fingerprints, who acquires the address of a prostitute, upgrading their social media account, who looks through the fingerprints of a bus driver, downgrading their medical record, who pours over the harddrive of a scientist, updating their address, who acquires the fingerprints of a journalist, upgrading their education record, who uploads the webcam of a blogger, encrypting their name, who acquires the hair-sample of a web developer, crossing-out their social media account, who decrypts the usb key of a researcher, downloading their business record, who acquires the fingerprints of a drug dealer, backing-up their name, who gazes into the social media account of a janitor, updating their skin-sample, who acquires the criminal record of a model, deleting their fingerprints, who records the webcam of a socialite, upgrading their social media account, who acquires the saliva-sample of a bus driver, downgrading their government record, who looks through the harddrive of a cook, crossing-out their address, who acquires the name of a scientist, downloading their social media account, who decrypts the usb key of a computer programmer, deleting their housing record, who acquires the fingerprints of a vagrant, upgrading their name, who pours over the blood-sample of a dock worker, backing-up their address, who acquires the social media account of a blogger, downgrading their online-activity record, who uploads the webcam of a police officer, deleting their social media account. The authorities promise to look into it further...

*[The suspect hops between the rooftops. The pursuers stop to catch their breath.]*

### 34 hours after the escape

After misinformation is given to the public, the corporates accuses the communists for being too politicized and who blames the conservatives and who decries the socialists for being too extremist and who defends academia for being too censored who blames the neoliberals who fault the mainstream news sites who decries liberal media who blames the corporates for being too reactionary and who fault the conservatives who decries the anarchists and who accuses the elite who defends the government who decries the communists who blames the liberals who accuses the corporates for being too liberal who decries academia for being too suspicious and who blames the socialists who accuses conservative media for being too scared who fault the anarchists who decries the mainstream news sites for being too politicized and who accuses liberal media who blames the corporates for being too amoral who defends the neoliberals for being too extremist and who fault the liberals who decries the communists who blames conservative media for being too radical who accuses academia and who fault the government who blames the elite who accuses liberal media for being too oversensitive who defends the anarchists who decries the communists and who fault the corporates for being too suspicious and who defends the neoliberals who decries the liberals and who accuses the elite who blames the socialists for being too liberal and who fault the government for being too conservative who accuses the anarchists who blames conservative media who fault the conservatives for being too censored and who accuses the liberals and who defends the corporates and who blames academia for being too scared and who accuses the mainstream news sites who decries the government who fault the neoliberals for being too oversensitive who blames the conservatives for being too radical and who defends liberal media who accuses conservative media who fault the corporates and who blames the elite. The vocal supporters of the anarchists receive threatening letters...

*[The suspect hides to catch their breath. The pursuers shout threats.]*

### 35 hours after the escape

*A twitchy teenager is having a bad trip. "shit fuck" They try to open the back door but it won't budge "damn fuck" "I hear someone in the house" "shit damn" They kick away some centipedes "shit fuck" "The damn termites are back" "damn fuck" They creep to the garage "shit fuck" "They know" "shit damn" "shit fuck" "I have to get out of here" "shit damn" They kick away some cockroaches "shit fuck" "I hear them closing in" "damn shit" They trip over a computer wires "damn shit" "They're onto me" "damn fuck" They run to the basement "damn fuck" "I hear someone in the house" "damn fuck" They kick away some rats "shit damn" "Where can I hide?" "shit damn" "shit fuck" "The damn centipedes are back" "damn shit" They wander to the bedroom "damn shit" "They're trying to shut me up" "fuck shit" They kick away some termites "damn shit" "They're all around me" "fuck damn" "fuck shit" "They know" "damn shit" They try to open the front door but it won't budge "fuck damn" "I*

have to get out of here” ”fuck shit” *They trip over a stack of printouts They pass out...*

*[The suspect narrowly escapes a hail of bullets. The pursuers pick up speed.]*

### **36 hours after the escape**

Because of a lead, a janitor, while updating their fingerprints, records the hardrive of a web developer, crossing-out their name, who acquires the address of a researcher, upgrading their fingerprints, who acquires the skin-sample of a bus driver, backing-up their address, who looks through the usb key of a cook, downloading their name, who acquires the saliva-sample of a scientist, crossing-out their education record, who decrypts the webcam of a model, updating their fingerprints, who acquires the address of a journalist, deleting their social media account, who pours over the hair-sample of a dock worker, encrypting their fingerprints, who acquires the medical record of a blogger, upgrading their social media account, who downloads the usb key of a janitor, crossing-out their address, who acquires the name of a web developer, downgrading their fingerprints, who records the webcam of a bus driver, downloading their blood-sample, who acquires the criminal record of a socialite, updating their address, who looks through the fingerprints of a vagrant, encrypting their skin-sample, who acquires the social media account of a government official, crossing-out their address, who decrypts the hardrive of a scientist, downgrading their name, who acquires the cellphone record of a dock worker, backing-up their saliva-sample, who uploads the usb key of a journalist, updating their fingerprints, who acquires the name of a researcher, deleting their social media account, who records the webcam of a prostitute, encrypting their blood-sample, who acquires the housing record of a janitor, crossing-out their name, who downloads the social media account of a model, downgrading their address, who acquires the business record of a bus driver, downloading their name, who gazes into the hardrive of a police officer, backing-up their skin-sample, who acquires the social media account of a prostitute, encrypting their social media account. Suspicions are raised...

*[The suspect runs down a hallway. The pursuers falter.]*

### **37 hours after the escape**

*Location: a secretive online discussion.*

USER THREE: "User Five is not who they say they are"

*The chat loses connection.*  
*User Two stops recording the chat...*  
*[The suspect darts under an overpass. The pursuers run past.]*

### **38 hours after the escape**

After too little information is leaked to the public, the conservatives defends the government for being too extremist who decries the socialists for being too conservative and who fault academia who accuses the anarchists who decries conservative media for being too suspicious and who defends the communists for being too liberal who blames the government who fault liberal media for being too politicized who defends academia and who decries the corporates who blames the neoliberals for being too reactionary and who fault the mainstream news sites who defends the liberals and who accuses the conservatives who fault the socialists and who blames academia and who decries the corporates for being too amoral and who fault the elite for being too oversensitive who defends liberal media for being too suspicious who decries the anarchists who fault the neoliberals who blames the government for being too scared who accuses the communists who decries academia who blames the elite for being too censored and who accuses the socialists who decries the conservatives who defends the liberals and who blames the neoliberals who fault liberal media for being too conservative and who decries the mainstream news sites for being too amoral who defends academia and who blames the corporates who decries the socialists for being too liberal who accuses the liberals for being too radical and who fault the anarchists for being too oversensitive and who decries the communists and who defends the conservatives who blames the elite and who accuses the mainstream news sites and who decries the government who defends academia who accuses the socialists who fault conservative media who decries the neoliberals who accuses the communists and who defends liberal media for being too censored and who fault the anarchists for being too suspicious who blames academia who decries the liberals who defends the conservatives for being too extremist and who blames the socialists and who accuses the neoliberals for being too liberal and who decries the communists and who defends the anarchists and who fault the corporates. A vocal supporter of the conservatives goes missing....

*[The suspect twists through a staircase. The pursuers stop to catch their breath.]*

### **39 hours after the escape**

*A wiry nobody is holding a gun to their head. "damn fuck" "I hear them closing in" "damn shit" "fuck damn" "They're onto me" "fuck shit" They try to open the back door but it won't budge "damn shit" "They're all around me" "damn shit" They kick away some rats "fuck damn" "They're trying to shut me up" "shit fuck" They creep to the garage "shit fuck" "Where can I hide?" "damn shit" They trip over a pizza box "fuck damn" "The damn cockroaches are back" "shit damn" They kick away some centipedes "shit fuck" "They're onto me" "damn fuck" They go to the server room "shit fuck" "I have to get out of here" "damn shit" "damn shit" "They're all around me" "damn shit" They trip over a briefcase "damn fuck" "They know" "damn fuck" They run to the bedroom "shit fuck" "Where can I hide?" "damn shit" They kick away some termites "fuck damn" "They're onto me" "fuck damn" "shit damn" "They're trying to shut me up" "fuck shit" They creep to the basement "fuck damn" "I hear them closing in" "shit fuck" They try to open the front door but it won't budge "damn shit" "They're all around me" "damn fuck" They kick away some centipedes "damn fuck" "Where can I hide?" "shit damn" They go to the garage "fuck damn" "I have to get out of here" "shit damn" "shit damn" "I hear someone in the house" "shit damn" They kick away some rats "shit damn" "I hear them closing in" "shit damn" They try to open the back door but it won't budge "shit fuck" "They know" The cockroaches flood into the room...*

*[The suspect hides to catch their breath. The pursuers shout threats.]*

### **40 hours after the escape**

Because of a dream, a drug dealer, while encrypting their fingerprints, looks through the usb key of a vagrant, downgrading their employment record, who acquires the saliva-sample of a researcher, downloading their social media account, who decrypts the webcam of a scientist, crossing-out their fingerprints, who acquires the online-activity record of a journalist, upgrading their name, who downloads the harddrive of a government official, updating their social media account, who acquires the fingerprints of a bus driver, downgrading their address, who uploads the usb key of a prostitute, downloading their blood-sample, who acquires the social media account of a cook, crossing-out their fingerprints, who pours over the webcam of a dock worker, encrypting their name, who acquires the medical record of a drug dealer, updating their hair-sample, who gazes into the harddrive of a socialite, upgrading their address, who acquires the name of a janitor, backing-up their social media account, who records the social media account of a police officer, downgrading their skin-sample, who acquires the address of a blogger, downloading their fingerprints, who decrypts the usb key of a government official, updating their government record, who acquires the saliva-sample of a researcher, upgrading their name, who downloads

the hardrive of a bus driver, crossing-out their fingerprints, who acquires the cellphone record of a computer programmer, downgrading their social media account, who gazes into the webcam of a prostitute, encrypting their hair-sample, who acquires the address of a scientist, downloading their name, who records the usb key of a drug dealer, updating their fingerprints, who acquires the skin-sample of a dock worker, deleting their social media account, who decrypts the address of a socialite, downgrading their name, who acquires the business record of a janitor, crossing-out their fingerprints, who uploads the webcam of a web developer, upgrading their address, who acquires the blood-sample of a researcher, backing-up their social media account, who looks through the usb key of a vagrant, encrypting their fingerprints, who acquires the name of a computer programmer, updating their hair-sample, who gazes into the hardrive of a police officer, downgrading their housing record, who acquires the address of a prostitute, downloading their social media account, who decrypts the education record of a drug dealer, deleting their name, who acquires the fingerprints of a cook, crossing-out their saliva-sample, who uploads the webcam of a blogger, updating their address, who acquires the social media account of a socialite, backing-up their fingerprints, who pours over the usb key of a journalist, encrypting their name, who acquires the address of a researcher, upgrading their online-activity record, who gazes into the hardrive of a vagrant, deleting their skin-sample, who acquires the fingerprints of a blogger, deleting their address. An arrest warrent is issued...

*[The suspect crashes through a window. The pursuers pick up speed.]*

## **41 hours after the escape**

After A false suspect's social media account is spread to the public, conservative media decries the elite who blames the mainstream news sites who fault the conservatives who defends the socialists for being too amoral and who blames the communists who accuses the anarchists for being too radical and who decries the corporates who defends the elite who accuses the liberals for being too oversensitive who fault liberal media who decries the neoliberals for being too scared and who defends the mainstream news sites for being too conservative who fault the socialists for being too reactionary who blames the corporates and who accuses academia who defends the government who blames the anarchists for being too suspicious who fault the conservatives who accuses the neoliberals for being too radical who defends the socialists for being too liberal and who blames the elite for being too politicized who decries conservative media for being too censored who defends the government and who fault liberal media and who blames the anarchists for being too oversensitive and who decries the conservatives and who accuses the mainstream news sites who blames academia who fault the corporates and who defends the neoliberals who accuses the liberals who blames the government for being too suspicious who fault the conservatives who defends liberal media who accuses the socialists who blames the elite who defends the communists who decries conservative media for be-

ing too reactionary who blames the corporates and who fault the government who decries the mainstream news sites for being too amoral and who accuses academia for being too radical and who defends liberal media and who fault the conservatives who decries conservative media for being too censored and who accuses the liberals who defends the government for being too oversensitive and who blames the neoliberals who decries the anarchists who defends liberal media for being too extremist and who fault the corporates. the liberals get less public air time on television...

*[The suspect ducks into an alleyway. The pursuers falter.]*

## **42 hours after the escape**

*A frantic addict is fighting off an infestation of termites. "damn fuck" They wander to the server room "shit fuck" "Where can I hide?" "shit damn" They try to open the window but it won't budge "fuck damn" "They're trying to shut me up" "fuck shit" "damn fuck" "They're all around me" "shit fuck" They kick away some cockroaches "shit damn" "The damn centipedes are back" "fuck shit" They run to the basement "damn shit" "I have to get out of here" "fuck damn" "fuck shit" "They're onto me" "fuck shit" They trip over a chair "fuck shit" "They're trying to shut me up" "fuck damn" They try to open the front door but it won't budge "fuck shit" "They're all around me" "damn shit" They creep to the bedroom "fuck shit" "They know" "damn fuck" "damn shit" "I have to get out of here" "fuck shit" They kick away some rats "damn fuck" "I hear them closing in" "shit damn" They go to the garage "shit damn" "They're trying to shut me up" ...*

*[The suspect narrowly escapes a hail of bullets. The pursuers call for reinforcements.]*

## **43 hours after the escape**

*Location: an untraceable online discussion.*

USER THREE: "shit damn"

USER FOUR: "We'll close in on her soon"

USER TWO: "Did you find out anything new?"

USER THREE: "They took him away from me"

USER ONE: "I found it!"

USER THREE: "Lies"

USER FOUR: "Can you believe the mainstream news sites?"

USER ONE: "Stop joking around"

USER FIVE: "User Four is not who they say they are"

USER TWO: "I know who did it"

USER ONE: "What are you talking about?"

USER THREE: "Someone is watching this thread"

USER FOUR: "They took her away from me"

USER TWO: "You're crazy"

USER ONE: "We'll close in on him soon"

USER FIVE: "Can you believe the elite?"

USER THREE: "I think I'm being followed"

USER ONE: "This is the fault of the communists"

USER FIVE: "fuck damn"

*The chat is disconnected.*

*Later, User Five meets a cloaked figure on the street and gives them the tax record of User Two...*

*[The suspect hops between the rooftops. The pursuers stop to catch their breath.]*

#### **44 hours after the escape**

Because of a hunch, a web developer, while downloading their blood-sample, records the webcam of a prostitute, encrypting their name, who acquires the cellphone record of a computer programmer, crossing-out their fingerprints, who downloads the social media account of a model, backing-up their hair-sample, who acquires the name of a socialite, deleting their fingerprints, who decrypts the usb key of a journalist, downloading their business record, who acquires the address of a janitor, downgrading their social media account, who pours over the hardrive of a police officer, crossing-out their name, who acquires the housing record of a web developer, updating their fingerprints, who gazes into the social media account of a prostitute, backing-up their name, who acquires the skin-sample of a computer programmer, deleting their address, who uploads the webcam of a scientist, upgrading their fingerprints, who acquires the education record of a cook, downloading their saliva-sample, who records the hardrive of a dock worker, downgrading their name, who acquires the social media account of a government official, crossing-out their employment record, who looks through the address of a journalist, backing-up their fingerprints, who acquires the blood-sample of a bus driver, updating their social media account, who pours over the webcam of a blogger, upgrading their address, who acquires the hair-sample of a drug dealer, downgrading their name, who downloads the usb key of a socialite, deleting their medical record, who acquires the fingerprints of a police officer, backing-up their saliva-sample, who records the hardrive of a scientist, updating their name, who acquires the address of a model, upgrading their fingerprints, who gazes into the skin-sample of a cook, crossing-out their social media account, who acquires the government record of a vagrant, downloading their name, who uploads the webcam of a web developer, downgrading their fingerprints, who acquires the hair-sample of a blogger, backing-up their tax record, who downloads the usb key of a prostitute, updating their social media account, who acquires the address of a dock worker, upgrading their fingerprints, who pours over the hardrive of a journalist, downloading their cellphone record, who acquires the name of a government official, downgrading their address, who decrypts the blood-sample of a model, deleting their housing record, who acquires the name of a researcher, updating their fingerprints, who uploads the usb key of a blogger, downgrading their address. However it leads nowhere...

*[The suspect runs down a hallway. The pursuers fire a warning shot.]*

#### **45 hours after the escape**

*A stoned hacker is having a bad trip. *User Three hears a door open behind them...*

*[The suspect runs down a hallway. The pursuers fire a warning shot.]*

## 97 hours after the escape

*A stoned addict is holding a gun to their head. "shit fuck" "The damn rats are back" "damn fuck" "shit fuck" "They're all around me" "damn shit" They try to open the front door but it won't budge "fuck damn" "I have to get out of here" "fuck damn" They go to the server room "shit fuck" "Where can I hide?" "shit damn" They trip over a computer wires "fuck shit" "They're trying to shut me up" "damn shit" "damn shit" "The damn cockroaches are back" "damn shit" They kick away some termites "damn shit" "I hear them closing in" "damn fuck" They try to open the window but it won't budge "shit damn" "They know" "fuck damn" They trip over a pizza box "fuck shit" "I have to get out of here" "damn fuck" They kick away some rats "damn fuck" "They're trying to shut me up" "shit fuck" "shit damn" "Where can I hide?" "shit fuck" They try to open the front door but it won't budge "damn shit" "They're onto me" "damn shit" They trip over a stack of printouts "fuck shit" "I hear them closing in" "fuck shit" They kick away some cockroaches "fuck shit" "I hear someone in the house" "damn fuck" They run to the basement "damn fuck" "The damn centipedes are back" "shit fuck" They try to open the window but it won't budge The lights in the room cut out...*

*[The suspect twists through a staircase. The pursuers falter.]*

## 98 hours after the escape

After too much information is spread to the public, the liberals fault the conservatives for being too extremist who decries the socialists for being too censored and who blames the anarchists for being too oversensitive and who defends the mainstream news sites who fault the communists who accuses the government who blames the corporates for being too radical who defends academia who fault conservative media and who blames liberal media who accuses the socialists for being too conservative and who defends the anarchists who blames the government for being too suspicious who decries the communists who accuses the liberals for being too reactionary and who blames conservative media who decries the corporates who fault academia who blames the socialists and who decries the mainstream news sites for being too censored who defends the neoliberals for being too politicized and who blames liberal media for being too liberal and who accuses the liberals and who defends the government for being too radical who decries the conservatives who accuses conservative media who blames the communists who fault the mainstream news sites who decries the anarchists for being too suspicious who accuses the liberals who fault the government for being too extremist and who defends the corporates for being too amoral and who accuses the neoliberals for being too censored and who blames academia for being too liberal and who fault the communists and who accuses the anarchists and who defends liberal media for being too politicized and who blames the mainstream news sites who accuses the socialists who decries the elite who blames the neoliberals for being too radical and who defends the communists and who accuses the liberals who blames academia for being too oversensitive and who defends the conservatives for being too scared who fault the socialists who accuses the elite for being too suspicious who decries liberal media for being too censored who blames the government who fault the anarchists for being too conservative and who decries the liberals who blames the communists for being too amoral and who defends the socialists and who decries the neoliberals who fault the corporates who accuses the conservatives for being too reactionary who decries liberal media and who blames the government and who accuses the elite and who decries academia for being too scared who blames the neoliberals for being too extremist and who defends conservative media who fault the mainstream news sites for being too oversensitive who accuses the corporates for being too conservative who decries the government who defends liberal media for being too radical who fault the communists for being too amoral who accuses the anarchists who defends the neoliberals who decries conservative media for being too censored and who accuses the mainstream news sites who fault the government who defends academia who accuses the liberals for being too extremist and who blames the communists who defends liberal media. The vocal supporters of liberal media receive threatening letters...

*[The suspect narrowly escapes a hail of bullets. The pursuers stop to catch their breath.]*

## 99 hours after the escape

Because of a hunch, a web developer, while downgrading their social media account, gazes into the usb key of a prostitute, upgrading their name, who acquires the blood-sample of a police officer, downloading their medical record, who decrypts the harddrive of a dock worker, deleting their hair-sample, who acquires the fingerprints of a scientist, backing-up their address, who pours over the webcam of a janitor, crossing-out their criminal record, who acquires the social media account of a government official, downgrading their saliva-sample, who downloads the usb key of a journalist, updating their business record, who acquires the social media account of a web developer, downloading their name, who uploads the address of a blogger, crossing-out their fingerprints, who acquires the cellphone record of a drug dealer, encrypting their name, who records the harddrive of a prostitute, deleting their social media account, who acquires the fingerprints of a vagrant, updating their employment record, who decrypts the usb key of a janitor, upgrading their address, who acquires the social media account of a model, downgrading their fingerprints, who downloads the webcam of a journalist, backing-up their blood-sample, who acquires the name of a cook, downloading their social media account, who uploads the housing record of a dock worker, encrypting their hair-sample, who acquires the fingerprints of a blogger, crossing-out their address, who records the harddrive of a bus driver, updating their saliva-sample, who acquires the social media account of a scientist, deleting their fingerprints, who decrypts the usb key of a researcher, upgrading their name, who acquires the skin-sample of a drug dealer, downloading their government record, who pours over the address of a prostitute, encrypting their social media account, who acquires the fingerprints of a bus driver, backing-up their address. Suspicions are raised...

*[The suspect slips into the sewers. The pursuers run past.]*

## 100 hours after the escape

*A spaced-out man is fighting off an infestation of rats. "shit damn" "They're trying to shut me up" "shit damn" They kick away some termites "shit damn" "They're onto me" "shit damn" "shit fuck" "They're all around me" "shit damn" They try to open the back door but it won't budge "fuck damn" "They know" "shit fuck" They kick away some cockroaches "damn fuck" "I have to get out of here" "damn fuck" "damn fuck" "I hear someone in the house" "shit damn" They trip over a chair "shit damn" "They're onto me" "shit damn" They kick away some rats "fuck damn" "I hear them closing in" "shit fuck" "damn fuck" "Where can I hide?" "damn shit" They try to open the window but it won't budge "damn fuck" "They're trying to shut me up" "damn shit" They trip over a computer wires "fuck damn" "They're all around me" "shit fuck" "damn shit" "I have to get out of here" A mysterious stranger draws closer...*

*[The suspect crashes through a window. The pursuers fire a warning shot.]*

## 101 hours after the escape

After The suspect's online-activity record is leaked to the public, the corporates accuses the conservatives who decries conservative media for being too scared who defends the government for being too liberal and who blames the liberals who accuses the neoliberals who defends the mainstream news sites who decries the socialists for being too radical and who blames the communists for being too politicized and who defends the corporates who fault the conservatives who blames the government who defends liberal media and who decries the liberals for being too censored who blames the socialists who defends the neoliberals for being too amoral who accuses conservative media for being too extremist who fault the communists and who defends academia for being too conservative and who decries the corporates for being too radical and who blames the mainstream news sites for being too oversensitive who fault the elite who defends the neoliberals who accuses the government who blames the conservatives and who decries liberal media who fault the corporates and who defends academia who decries conservative media who accuses the liberals who fault the government for being too scared and who decries the anarchists for being too politicized who blames the communists who defends the corporates for being too liberal who decries liberal media for being too reactionary and who blames academia and who fault the mainstream news sites for being too conservative who defends the socialists for being too extremist who blames the government for being too scared and who fault the anarchists who decries the liberals who defends the corporates and who fault the communists who blames the conservatives who decries the elite and who accuses the neoliberals who blames the socialists. The public becomes divided...

*[The suspect hops between the rooftops. The pursuers falter.]*

## 102 hours after the escape

*Location: an untraceable online discussion.*

USER TWO: "Can you believe liberal media?"

USER THREE: "I found something important"

USER FIVE: "Someone is watching this thread"

USER FOUR: "I can decrypt this"

USER THREE: "I found it!"

USER TWO: "You're crazy"

USER FOUR: "Lies"

USER TWO: "I think I'm being followed"

USER THREE: "fuck shit"

USER FOUR: "Did you find out anything new?"

USER TWO: "This is the fault of the liberals"

USER ONE: "Can you believe the mainstream news sites?"

USER THREE: "We'll close in on her soon"

USER FOUR: "I found something important"

USER FIVE: "User Two is not who they say they are"

USER ONE: "I know who did it"  
USER FIVE: "What are you talking about?"  
USER TWO: "I can decrypt this"  
USER THREE: "Stop joking around"  
USER FOUR: "Someone is watching this thread"  
*The chat loses connection.*  
*Later, User One goes to their contact and gives them the social media account of User Five...*  
*[The suspect runs down a hallway. The pursuers pick up speed.]*

### **103 hours after the escape**

*A wiry woman is typing frantically on a computer. "damn shit" They kick away some termites "fuck shit" "I hear someone in the house" "fuck shit" They creep to the bathroom "damn fuck" "I hear them closing in" "shit damn" They try to open the front door but it won't budge "shit fuck" "They know" "shit fuck" They kick away some centipedes "damn shit" "Where can I hide?" "damn fuck" They go to the bedroom "damn shit" "They're all around me" "fuck shit" They trip over a trash "damn fuck" "I have to get out of here" "shit fuck" They try to open the window but it won't budge "damn shit" "They're onto me" "fuck shit" They run to the basement "damn fuck" "The damn rats are back" "shit fuck" "shit fuck" "I hear someone in the house" "damn shit" They trip over a stack of printouts "damn fuck" "I hear them closing in" "shit damn" They try to open the back door but it won't budge "shit fuck" "Where can I hide?" "shit fuck" "shit damn" "They're all around me" "shit fuck" They kick away some termites "shit damn" "They're trying to shut me up" "shit fuck" They try to open the front door but it won't budge "shit damn" "I have to get out of here" "shit damn" They trip over a pizza box "shit damn" "I hear them closing in" "fuck shit" They kick away some centipedes "damn shit" "They know" "fuck damn" "shit damn" "They're all around me" "shit fuck" They wander to the server room "damn fuck" "Where can I hide?" "damn fuck" They trip over a chair "shit fuck" "They're onto me" "shit damn" They try to open the window but it won't budge "shit fuck" "They're trying to shut me up" "damn shit" They kick away some rats "fuck damn" "I hear someone in the house" "fuck shit" They go to the bedroom "damn fuck" "I hear them closing in" "damn shit" They try to open the front door but it won't budge They pass out...*  
*[The suspect darts under an overpass. The pursuers call for reinforcements.]*

### **104 hours after the escape**

Because of a conversation, a janitor, while crossing-out their name, downloads the webcam of a police officer, updating their fingerprints, who acquires the social media account of a computer programmer, deleting their address, who records the usb key of a government official, upgrading their name, who acquires the education record of a blogger, downloading their fingerprints, who gazes

into the address of a dock worker, encrypting their blood-sample, who acquires the criminal record of a researcher, updating their social media account, who pours over the hardrive of a journalist, deleting their name, who acquires the fingerprints of a model, crossing-out their skin-sample, who uploads the webcam of a scientist, upgrading their social media account, who acquires the name of a drug dealer, encrypting their cellphone record, who downloads the usb key of a web developer, downgrading their saliva-sample, who acquires the social media account of a bus driver, backing-up their fingerprints, who decrypts the social media account of a prostitute, crossing-out their address, who acquires the medical record of a government official, deleting their name, who pours over the webcam of a police officer, encrypting their fingerprints, who acquires the address of a journalist, upgrading their name, who records the hardrive of a vagrant, updating their hair-sample, who acquires the fingerprints of a computer programmer, downloading their social media account, who gazes into the address of a dock worker, deleting their skin-sample, who acquires the fingerprints of a web developer, crossing-out their social media account, who decrypts the usb key of a model, backing-up their address, who acquires the saliva-sample of a cook, downgrading their fingerprints, who uploads the webcam of a janitor, downloading their tax record, who acquires the name of a blogger, updating their blood-sample, who looks through the hardrive of a socialite, encrypting their social media account, who acquires the address of a journalist, deleting their fingerprints, who gazes into the usb key of a government official, downgrading their name, who acquires the skin-sample of a dock worker, crossing-out their government record, who downloads the fingerprints of a police officer, upgrading their social media account, who acquires the name of a web developer, backing-up their hair-sample. However it leads nowhere...

*[The suspect slips into the sewers. The pursuers fire a warning shot.]*

## **105 hours after the escape**

*Location: a secretive online discussion.*

USER TWO: "I found it!"

USER FIVE: "This is the fault of the corporates"

USER ONE: "We'll close in on him soon"

USER TWO: "I found something important"

USER FIVE: "fuck shit"

USER ONE: "I know who did it"

USER FOUR: "I think I'm being followed"

USER THREE: "User Four is not who they say they are"

USER ONE: "I can decrypt this"

USER TWO: "They took her away from me"

*Location: an encrypted online discussion.*

USER THREE: "I know who did it"

USER ONE: "I can decrypt this"

USER FIVE: "You're crazy"

USER FOUR: "shit damn"

USER THREE: "Lies"

USER FIVE: "Someone is watching this thread"

USER TWO: "What are you talking about?"

USER THREE: "Stop joking around"

USER ONE: "I think I'm being followed"

USER TWO: "This is the fault of the corporates"

USER FIVE: "We'll close in on him soon"  
USER THREE: "You're crazy"  
USER TWO: "Can you believe the government?"  
USER FOUR: "They took her away from me"  
USER THREE: "fuck shit"  
USER FIVE: "Lies"  
USER TWO: "I know who did it"  
USER THREE: "Did you find out anything new?"  
USER FOUR: "I found it!"  
USER FIVE: "We'll close in on him soon"  
*The chat is disconnected.*  
*User Four stops recording the chat...*  
*[The suspect crashes through a window. The pursuers shout threats.]*
